Infrastructure  
& Economic  
Development  
Bank

The California Financing Coordinating Committee (CFCC), created in 1998, consists of state and federal agencies and departments that work together to offer coordinated and streamlined access to infrastructure financing for California's local communities. The CFCC members provide potential borrowers and grant recipients with an efficient and effective infrastructure funding mechanism.

## PURPOSE OF FUNDING FAIRS

The CFCC Funding Fairs provide opportunities to obtain more information about the loan, grant, and bond financing options that are available for critical infrastructure projects.

## WHO SHOULD ATTEND

Public works officials, local government representatives, including city managers and planners, economic development and engineering professionals, officials from privately owned facilities, financial advisors and consultants.

## 2003 FUNDING FAIRS
