## **USDA Rural Development Participates in Groundbreaking Ceremony at Bellevue Senior Housing**

*New 16-Unit Complex Built with the Help of \$876,000 in Rural Development Loans*

BELLEVUE – June 11 – John Arthur, USDA Rural Development Area Director in Tipton, today participated in a groundbreaking ceremony for Bellevue Senior Housing. USDA Rural Development provided \$876,000 in loans to support the project.

“Ensuring that elderly and disabled Iowans living in rural communities have decent, safe and affordable housing has been a top priority of USDA Rural Development for many years,” said Mark Reisinger, the State Director of USDA Rural Development in Iowa. “This project will help us meet our goal of making sure as many rural Iowans as possible have access to adequate housing.”

When completed, Bellevue Senior Housing will be a 16-unit apartment complex for seniors and people with disabilities of any age.

USDA Rural Development currently has 625 multi-family housing projects in Iowa in 98 counties. Overall, these projects provide rural Iowa residents access to 11,133 apartments. Rent is based on income. Rent assistance is also available from the government depending on the income of the tenant.

Each year USDA Rural Development invests around \$100 million in loans and grants that provide rural residents with decent, safe and sanitary single or multi-family housing. Housing loans can be obtained directly with Rural Development or from a private financial institution.

USDA Rural Development is an equal opportunity lender with a variety of direct and guaranteed rural credit programs involving single and multi-family housing, community facilities, water and sewer development and business and industry programs.

“We are excited to partner with Bellevue Senior Housing as they serve senior citizens and people with disabilities in Jackson County,” Reisinger said. “As Iowans continue to live longer and more independent lives, the need for these types of housing projects will continue.”
