DES MOINES, Iowa – June 9, 2009 – Virgene Ryan with USDA Rural Development was in Blencoe today to present information about USDA Rural Development’s loan and grant programs that can assist eligible homeowners with making essential home repairs. The presentation took place at the Blencoe Community Club and was organized as a senior citizen coffee and potluck.

West Central Community Action Agency co-hosted the event.

“Last year USDA Rural Development provided Iowans with \$128 million in guaranteed and direct loans to help 1,600 families living in rural communities become homeowners, many of whom now own their first home,” Timothy Helmbrecht, USDA Rural Development Acting State Director in Iowa said.

Along with loans to purchase a home, USDA Rural Development also helps existing homeowners with loans and grants to assist with removing health and safety hazards from the home, as well as make other needed improvements.

This event is one of more than 15 activities USDA Rural Development is organizing in Iowa to celebrate National Homeownership Month in June, a time to reflect on the important role homeownership plays in American society, especially in rural America. Other events include housing fairs, housing workshops and lender trainings.

USDA Rural Development’s guarantee loan program is administered by a local lender who takes the application, processes it and determines the acceptability of the home to be financed. Under the direct loan program an applicant may be eligible for payment assistance, which would subsidize the interest portion of the house payment down to as low as 1 percent, lowering the overall monthly payment amount.

Eligible homes must be located in a community of 20,000 persons or less. The home can be existing or new construction. Existing homes must be structurally sound. Also, the property cannot have any income-producing outbuildings.
