

USDA RURAL DEVELOPMENT HELPS FAMILY OUT OF RENTING SCENE

“We are “enjoying all the room” that our home provides. We are thankful to USDA Rural Development for the opportunity to be homeowners. Now any repairs or improvements we make will be to our own “home, sweet, home.”

--Crystal Fontaine, Homeowner

Outline of Need: Crystal Fontaine, her husband and two small children resided in rentals in Red Cloud, Nebraska that were often in need of repairs or updates which they frequently paid for and completed themselves. This circumstance, along with being tired of moving from one rental property to another, made the Fountaines very eager to purchase a home to settle in to.

How Rural Development Helped: USDA Rural Development provided an 100 percent financed loan of \$58,500.

The Results: Today, Crystal and her family enjoy their well maintained three bedroom, full basement ranch home in Red Cloud.
