

RURAL DEVELOPMENT HELPS SAVE LIVES WITH NOAA WEATHER RADIO TRANSMITTER GRANTS BRINGING ALL HAZARD EARLY WARNING SYSTEM TO RURAL AMERICA

As of June 9, 2011, the Rural Utilities Service (RUS) of the U.S. Department of Agriculture (USDA) has awarded 100 grants from its Weather Radio Transmitter Grant Program to extend the coverage of the National Oceanic and Atmospheric Administration's Weather Radio System (NOAA Weather Radio) in rural America. These 100 grants, covering 108 sites in 28 states and Puerto Rico, were awarded to 18 electric cooperatives and nonprofits, five telecommunications cooperatives, and 73 local and state governments. These grants were made from the original \$5 million appropriation and residual funds from grant projects that were completed under budget.

Each year, thousands of people die or lose property because they did not know soon enough about hazards, disasters, or emergencies. NOAA Weather Radio operates an all hazard early warning system that alerts people, in areas covered by its transmissions, of approaching dangerous weather and other emergencies. The system covers all major metropolitan areas and many smaller cities and towns. However, many rural areas do not have NOAA Weather Radio coverage. Rural Development is pleased to administer the Weather Radio Transmitter Grant Program because **NOAA Weather Radio promotes public safety and awareness, and saves lives.**

A list of the approved grant applications follows. The Telecommunications Program will update this list as the agency approves additional grants. Further information regarding the grant program may be found at http://www.rurdev.usda.gov/UTP_WeatherRadio.html, or call or e-mail Craig R. Wulf, Telecommunications Program Advisor, on 202-720-8427; craig.wulf@wdc.usda.gov.

Weather Radio Transmitter Grant Program Approvals

Holy Cross Electric Association, Inc. – Glenwood Springs, Colorado

On May 16, 2011, Rural Development approved a grant in the amount of \$33,670 to Holy Cross Electric Association, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Eagle (Castle Peak) Eagle County, Colorado.

County of Inyo, California – Independence, California

On September 23, 2010, Rural Development approved a grant in the amount of \$42,780 to County of Inyo, California. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Silver Peak, Inyo County, California.

Monroe County, State of Mississippi – Aberdeen, Mississippi

On May 24, 2010, Rural Development approved a grant in the amount of \$67,531 to Monroe County, State of Mississippi. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Aberdeen, Monroe County, Mississippi.

County of Lassen, State of California – Susanville, California

On May 2, 2008, Rural Development approved a grant in the amount of \$46,622 to County of Lassen, State of California. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Susanville, Lassen County, California.

County of Huron – Bad Axe, Michigan

On March 12, 2008, Rural Development approved a grant in the amount of \$42,965 to County of Huron. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Bad Axe, Huron County, Michigan.

Lander County, State of Nevada – Battle Mountain, Nevada

On February 8, 2008, Rural Development approved a grant in the amount of \$46,598 to Lander County, State of Nevada. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Battle Mountain, Lander County, Nevada.

Commonwealth of Virginia, Department of Emergency Management – Richmond, Virginia

On December 18, 2007, Rural Development approved a grant in the amount of \$59,900 to the Commonwealth of Virginia, Department of Emergency Management. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Onley, Accomack County, Virginia.

Grant County, New Mexico – Silver City, New Mexico

On September 26, 2007, Rural Development approved a grant in the amount of \$31,000 to Grant County, New Mexico. The funds will be used to install a 100-watt dual weather radio transmitter and antenna at Silver City, Grant County, New Mexico.

Commonwealth of Virginia, Department of Emergency Management – Richmond, Virginia

On February 26, 2007, Rural Development approved two grants totaling \$118,400 to the Commonwealth of Virginia, Department of Emergency Management. The funds from one grant, in the amount of \$48,800, will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Sand Mountain, Wythe County, Virginia. The funds from the other grant, in the amount of \$69,600, will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Halifax, Halifax County, Virginia.

Tennessee Valley Electric Cooperative – Savannah, Tennessee

On February 26, 2007, Rural Development approved a grant in the amount of \$72,000 to Tennessee Valley Electric Cooperative. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Cypress Inn, Wayne County, Tennessee.

Consolidated Telcom – Dickinson, North Dakota

On February 26, 2007, Rural Development approved a grant in the amount of \$54,767 to Consolidated Telcom. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Scranton, Bowman County, North Dakota.

Custer Public Power District – Broken Bow, Nebraska

On February 26, 2007, Rural Development approved a grant in the amount of \$59,600 to Custer Public Power District. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Mullen, Hooker County, Nebraska.

Gogebic County Office of Emergency Services – Bessemer, Michigan

On February 26, 2007, Rural Development approved a grant in the amount of \$71,642 to Gogebic County Office of Emergency Services. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, backup generator, and ice bridge at Marenisco, Gogebic County, Michigan.

City of Nenana – Nenana, Alaska

On February 26, 2007, Rural Development approved a grant in the amount of \$39,438 to the City of Nenana. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Nenana Hill, Yukon/Koyukuk Census Area, Alaska.

San Juan County – Monticello, Utah

On September 30, 2005, Rural Development approved a grant in the amount of \$21,360 to San Juan County. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Abajo Peak, San Juan County, Utah.

Reeves County Emergency Management – Pecos, Texas

On September 30, 2005, Rural Development approved a grant in the amount of \$80,000 to Reeves County Emergency Management. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Pecos, Reeves County, Texas.

City of Antlers - Antlers, Oklahoma

On September 30, 2005, Rural Development approved a grant in the amount of \$68,720 to the City of Antlers. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Antlers, Pushmataha County, Oklahoma.

Teton County Civil Defense – Driggs, Idaho

On September 30, 2005, Rural Development approved a grant in the amount of \$38,975 to Teton County Civil Defense. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at West Teton Island Park, Teton County, Idaho.

Yampa Valley Electric Association, Inc. - Steamboat Springs, Colorado

On September 30, 2005, Rural Development approved a grant in the amount of \$31,500 to Yampa Valley Electric Association, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Steamboat Springs, Routt County, Colorado.

Schoolcraft County Emergency Management – Manistique, Michigan

On October 1, 2004, Rural Development approved a grant in the amount of \$58,870 to Schoolcraft County Emergency Management. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, backup generator, and security fence at Steuben/ Manistique, Schoolcraft County, Michigan.

County of Mono, California – Conway Summit, California

On September 29, 2003, Rural Development approved a grant in the amount of \$21,920 to County of Mono, California. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Conway Summit, Mono County, California.

Pennsylvania Emergency Management Agency – Harrisburg, Pennsylvania

On August 22, 2003, Rural Development approved a grant in the amount of \$43,602 to Pennsylvania Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Beach Lake, Wayne County, Pennsylvania.

Baca County – Springfield, Colorado

On August 6, 2003, Rural Development approved a grant in the amount of \$78,005 to Baca County. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Springfield, Baca County, Colorado.

City of Walsenburg – Trinidad, Colorado

On July 8, 2003, Rural Development approved a grant in the amount of \$39,858 to the City of Walsenburg. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Walsenburg, Huerfano County, Colorado.

Port of Siuslaw – Florence, Oregon

On July 1, 2003, Rural Development approved a grant in the amount of \$47,715, to Port of Siuslaw. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Florence, Lane County, Oregon.

Mid-Rivers Telephone Cooperative, Inc. – Circle, Montana

On June 17, 2003, Rural Development approved a second grant, in the amount of \$28,760, to Mid-Rivers Telephone Cooperative, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Winnett, Petroleum County, Montana.

Cornhusker Public Power District – Columbus, Nebraska

On May 29, 2003, Rural Development approved a grant in the amount of \$56,376 to Cornhusker Public Power District. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Albion, Boone County, Nebraska.

Cass County Electric Cooperative, Inc. – Fargo, North Dakota

On May 29, 2003, Rural Development approved a grant in the amount of \$79,912 to Cass County Electric Cooperative, Inc. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Fort Ransom, Ransom County, North Dakota.

Cassia County Emergency Services – Burley, Idaho

On April 2, 2003, Rural Development approved a grant in the amount of \$36,377 to Cassia County Emergency Services. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Burley, Cassia County, Idaho.

Jim Hogg County – Hebronville, Texas

On March 12, 2003, Rural Development approved a grant in the amount of \$79,373 to Jim Hogg County. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Hebronville, Jim Hogg County, Texas.

Emery County, Utah – Castle Dale, Utah

On March 12, 2003, Rural Development approved a grant in the amount of \$46,276 to Emery County, Utah. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Castle Dale, Emery County, Utah.

Commonwealth of Puerto Rico State Emergency Management Agency – San Juan, Puerto Rico

On March 7, 2003, Rural Development approved a grant in the amount of \$75,000 to Commonwealth of Puerto Rico State Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Culebra, Culebra County, Puerto Rico.

County of Richmond, North Carolina – Rockingham, North Carolina

On March 7, 2003, Rural Development approved a grant in the amount of \$42,072 to County of Richmond, North Carolina. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Ellerbe, Richmond County, North Carolina.

Jackson County Board of County Commissioners – Marianna, Florida

On February 6, 2003, Rural Development approved a grant in the amount of \$79,826 to Jackson County Board of County Commissioners. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and transmitter building at Sneads, Jackson County, Florida.

Marshall County Emergency Management Agency – Arab, Alabama

On January 29, 2003, Rural Development approved a grant in the amount of \$73,041 to Marshall County Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Arab, Marshall County, Alabama.

Rio Grande Electric Cooperative, Inc. – Brackettville, Texas

On January 29, 2003, Rural Development approved a grant in the amount of \$78,499 to Rio Grande Electric Cooperative, Inc. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Carrizo Springs, Dimmit County, Texas.

Comanche County Electric Cooperative Association – Comanche, Texas

On January 16, 2003, Rural Development approved a grant in the amount of \$63,555 to Comanche County Electric Cooperative, Association. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Eastland, Eastland County, Texas.

Beaverhead County – Dillon, Montana

On January 16, 2003, Rural Development approved a grant in the amount of \$67,249 to Beaverhead County. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and two backup generators at Dillon, Beaverhead County, Montana.

City of Brewton, Alabama – Brewton, Alabama

On December 6, 2002, Rural Development approved a grant in the amount of \$59,719 to City of Brewton, Alabama. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Brewton, Escambia County, Alabama.

Georgetown County – Georgetown, South Carolina

On November 26, 2002, Rural Development approved a grant in the amount of \$49,152 to Georgetown County. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Georgetown, Georgetown County, South Carolina.

Seward County Emergency Management – Liberal, Kansas

On November 26, 2002, Rural Development approved a grant in the amount of \$76,756 to Seward County Emergency Management. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Meade, Meade County, Kansas.

Washington County Emergency Management Agency – Bartlesville, Oklahoma

On November 26, 2002, Rural Development approved a grant in the amount of \$80,000 to Washington County Emergency Management Agency. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Bartlesville, Washington County, Oklahoma.

County of Blount, Alabama – Oneonta, Alabama

On October 4, 2002, Rural Development approved a grant in the amount of \$32,850 to County of Blount, Alabama. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Oneonta, Blount County, Alabama.

Dallas County Commission – Selma, Alabama

On October 4, 2002, Rural Development approved a grant in the amount of \$80,000 to Dallas County Commission. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Selma, Dallas County, Alabama.

Aiken County Government – Aiken, South Carolina

On September 30, 2002, Rural Development approved a grant in the amount of \$54,752 to Aiken County Government. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Aiken, Aiken County, South Carolina.

City of Avalon – Avalon, California

On September 24, 2002, Rural Development approved a grant in the amount of \$56,500 to City of Avalon. The funds will be used to install a 100-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Avalon (Catalina Island), Los Angeles County, California.

Tri-County Electric Membership Corporation – Lafayette, Tennessee

On September 24, 2002, Rural Development approved a grant in the amount of \$70,000 to Tri-County Electric Membership Corporation. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Lafayette, Macon County, Tennessee.

Phillips County – Helena, Arkansas

On September 24, 2002, Rural Development approved a grant in the amount of \$75,600 to Phillips County. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Marvell, Phillips County, Arkansas.

Hearst Castle (State Park) – San Simeon, California

On September 11, 2002, Rural Development approved a grant in the amount of \$28,228 to Hearst Castle (State Park). The funds will be used to install a 300-watt dual weather radio transmitter and antenna at San Simeon, San Luis Obispo County, California.

Warren County - Warrensburg, New York

On September 11, 2002, Rural Development approved a grant in the amount of \$42,242 to Warren County. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Gore Mountain (near Johnsbury), Warren County, New York.

Mendocino Emergency Services Authority – Ukiah, California

On September 10, 2002, Rural Development approved a grant in the amount of \$33,750 to Mendocino Emergency Services Authority. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Ukiah, Mendocino County, California.

Pioneer Electric Cooperative, Inc. – Greenville, Alabama

On September 10, 2002, Rural Development approved a grant in the amount of \$74,826 to Pioneer Electric Cooperative, Inc. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Greenville, Butler County, Alabama.

Lane County Emergency Preparedness - Dighton, Kansas

On September 10, 2002, Rural Development approved a grant in the amount of \$73,200 to Lane County Emergency Preparedness. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Dighton, Lane County, Kansas.

Greene County Board of Supervisors – Leakesville, Mississippi

On September 10, 2002, Rural Development approved a grant in the amount of \$62,561 to Greene County Board of Supervisors. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Leakesville, Greene County, Mississippi.

Mountrail-Williams Electric Cooperative - Williston, North Dakota

On August 16, 2002, Rural Development approved a grant in the amount of \$59,251 to Mountrail-Williams Electric Cooperative. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Belden, Mountrail County, North Dakota.

City of Moab - Moab, Utah

On July 22, 2002, Rural Development approved a grant in the amount of \$24,000 to City of Moab. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Moab, Grand County, Utah.

Sanpete County - Manti, Utah

On July 22, 2002, Rural Development approved a grant in the amount of \$38,252 to Sanpete County. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Manti, Sanpete County, Utah.

Kingsville-Kleberg County Office of Emergency Management - Kingsville, Texas

On July 12, 2002, Rural Development approved a grant in the amount of \$64,110 to Kingsville-Kleberg County Office of Emergency Management. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Riviera, Kleberg County, Texas.

La Plata Electric Association, Inc. - Durango, Colorado

On June 28, 2002, Rural Development approved a grant in the amount of \$27,300 to La Plata Electric Association, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Durango, La Plata County, Colorado.

City of Ponca City - Ponca City, Oklahoma

On June 10, 2002, Rural Development approved a grant in the amount of \$70,000 to City of Ponca City. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Ponca City, Kay County, Oklahoma.

Powder River County, Montana - Broadus, Montana

On June 10, 2002, Rural Development approved a grant in the amount of \$46,835 to Powder River County, Montana. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Broadus, Powder River County, Montana.

BEK Communications Cooperative - Steele, North Dakota

On June 10, 2002, Rural Development approved a grant in the amount of \$52,800 to BEK Communications Cooperative. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Steele, Kidder County, North Dakota.

Cloverland Electric Cooperative - Dafter, Michigan

On May 24, 2002, Rural Development approved a grant in the amount of \$73,600 to Cloverland Electric Cooperative. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, backup generator, telephone circuit, and security fence at Newberry, Luce County, Michigan.

Curry County - Gold Beach, Oregon

On May 20, 2002, Rural Development approved a grant in the amount of \$43,825 to Curry County, Oregon. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Cape Blanco (Port Orford), Curry County, Oregon.

Pembina County - Grafton, North Dakota

On May 17, 2002, Rural Development approved a grant in the amount of \$51,300 to Pembina County, North Dakota. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Cavalier, Pembina County, North Dakota.

Eddy County, North Dakota - New Rockford, North Dakota

On May 13, 2002, Rural Development approved a grant in the amount of \$79,886 to Eddy County, North Dakota. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter shelter, and backup generator at Sheyenne, Eddy County, North Dakota.

Gage County Emergency Management Agency - Beatrice, Nebraska

On April 30, 2002, Rural Development approved a grant in the amount of \$47,550 to Gage County Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and emergency power generator at Beatrice, Gage County, Nebraska.

Live Oak County Emergency Management Agency - George West, Texas

On April 24, 2002, Rural Development approved a grant in the amount of \$80,000 to Live Oak County Emergency Management Agency. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, backup generator, and transmitter building at Three Rivers, Live Oak County, Texas.

Prowers County Office of Emergency Management - Lamar, Colorado

On April 24, 2002, Rural Development approved a grant in the amount of \$69,695 to Prowers County Office of Emergency Management. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Lamar, Prowers County, Colorado.

City of Seminole - Seminole, Texas

On April 5, 2002, Rural Development approved a grant in the amount of \$79,850 to the City of Seminole. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and an emergency power generator at Seminole, Gaines County, Texas.

Region 26 Council - Taylor, Nebraska

On April 2, 2002, Rural Development approved a grant in the amount of \$64,500 to Region 26 Council. The funds will be used to install a 1000-watt dual weather radio transmitter and antenna at Ord, Valley County, Nebraska.

Garfield County, Montana - Jordan, Montana

On March 22, 2002, Rural Development approved a grant in the amount of \$46,276 to Garfield County, Montana. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Jordan, Garfield County, Montana.

Wheat Belt Public Power District - Sidney, Nebraska

On March 22, 2002, Rural Development approved a grant in the amount of \$80,000 to Wheat Belt Public Power District. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Oshkosh, Garden County, Nebraska.

Glacier Electric Cooperative, Inc. - Cut Bank, Montana

On March 6, 2002, Rural Development approved a grant in the amount of \$39,442 to Glacier Electric Cooperative, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Browning, Glacier County, Montana.

City of Norwich - Norwich, New York

On March 6, 2002, Rural Development approved a grant in the amount of \$48,020 to the City of Norwich. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Norwich, Chenango County, New York.

United Telephone Mutual Aid Corporation - Langdon, North Dakota

On February 7, 2002, Rural Development approved a grant in the amount of \$138,518 to United Telephone Mutual Aid Corporation. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Langdon, Cavalier County, North Dakota; a 300-watt dual weather radio transmitter and antenna at Willow City, Bottineau County, North Dakota; and a 300-watt dual weather radio transmitter and antenna at Rolla, Rolette County, North Dakota.

Franklin County, Tennessee - Winchester, Tennessee

On February 7, 2002, Rural Development approved a grant in the amount of \$78,133 to Franklin County, Tennessee. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, security fence, and fire protection at Winchester, Franklin County, Tennessee.

Ohio Emergency Management Agency - Columbus, Ohio

On February 7, 2002, Rural Development approved a grant in the amount of \$46,800 to Ohio Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Carey, Wyandot County, Ohio.

Steuben County Office of Emergency Services - Bath, New York

On January 3, 2002, Rural Development approved a grant in the amount of \$90,000 to Steuben County Office of Emergency Services. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Mount Washington, Steuben County, New York; and a 300-watt dual weather radio transmitter and antenna at Call Hill, Steuben County, New York.

City of Crossett, Arkansas - Crossett, Arkansas

On December 11, 2001, Rural Development approved a grant in the amount of \$80,000 to the City of Crossett, Arkansas. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Fountain Hill, Ashley County, Arkansas.

Medina Electric Cooperative, Inc. – Hondo, Texas

On November 30, 2001, Rural Development approved a grant in the amount of \$209,764 to Medina Electric Cooperative, Inc. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at D'Hanis, Medina County, Texas; a 300-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Dilley, Frio County, Texas; and a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Rio Grande City, Starr County, Texas.

City of Ithaca, New York – Ithaca, New York

On November 29, 2001, Rural Development approved a grant in the amount of \$75,000 to the City of Ithaca, New York. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Ithaca, Tompkins County, New York.

Maine Emergency Management Agency – Augusta, Maine

On November 29, 2001, Rural Development approved a second grant, in the amount of \$103,500, to Maine Emergency Management Agency. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Meddybemps, Washington County, Maine, and a 1000-watt dual weather radio transmitter and antenna at Springfield, Penobscot County Maine.

Nemont Telephone Cooperative, Inc. – Scobey, Montana

On November 19, 2001, Rural Development approved a grant in the amount of \$57,276 to Nemont Telephone Cooperative, Inc. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, backup generator, and security fence at Poplar, Roosevelt County, Montana.

Choctaw Electric Cooperative, Inc. – Hugo, Oklahoma

On October 29, 2001, Rural Development approved a grant in the amount of \$72,252 to Choctaw Electric Cooperative, Inc. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, and backup generator at Broken Bow, McCurtain County, Oklahoma.

Carroll County, Tennessee – Huntingdon, Tennessee

On October 26, 2001, Rural Development approved a grant in the amount of \$80,000 to Carroll County, Tennessee. The funds will be used to install a 1000-watt dual weather radio transmitter, antenna, transmitter building, and backup generator at Vale, Carroll County, Tennessee.

Caribou County Dept. of Public Safety – Soda Springs, Idaho

On October 24, 2001, Rural Development approved a grant in the amount of \$26,458 to Caribou County Dept. of Public Safety. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Sedgewick Peak (near Downey), Bannock County, Idaho.

Harney County – Burns, Oregon

On October 24, 2001, Rural Development approved a grant in the amount of \$40,498 to Harney County. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, backup generator, and fence at Burns (Burns Butte), Harney County, Oregon.

Meriwether Lewis Electric Cooperative – Centerville, Tennessee

On October 19, 2001, Rural Development approved a grant in the amount of \$138,644 to Meriwether Lewis Electric Cooperative. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, transmitter building, tower upgrade, security fence, and backup generator at Centerville, Hickman County, Tennessee, and a 1000-watt dual weather radio transmitter, antenna, and air conditioning unit at Lobelville, Perry County, Tennessee.

Atoka/Atoka County Emergency Management – Atoka, Oklahoma

On October 19, 2001, Rural Development approved a grant in the amount of \$59,492 to Atoka/Atoka County Emergency Management. The funds will be used to install a 300-watt dual weather radio transmitter, antenna, and backup generator at Atoka, Atoka County, Oklahoma.

Mid-Rivers Telephone Cooperative, Inc. – Circle, Montana

On October 19, 2001, Rural Development approved a grant in the amount of \$46,276 to Mid-Rivers Telephone Cooperative, Inc. The funds will be used to install a 300-watt dual weather radio transmitter and antenna at Circle, McCone County, Montana.

Delta County Emergency Management – Escanaba, Michigan
