USDA FUNDS STREET AND DRAINAGE IMPROVEMENTS FOR CITY OF CAMERON

Cameron, Texas, January 15, 2003 — Bryan Daniel, state director, Texas USDA Rural Development announced today that the City of Cameron received a \$406,000 loan and a \$30,000 grant through the Community Facilities (CF) loan and grant program, an agency that falls under the USDA Rural Development mission area. The effort is part of USDA's national program to help rural areas build and enhance essential community facilities.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "With lower populations and tax bases than urban areas, rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The funds will be used to make street and drainage improvements along East 21st and East 22nd Street, including the junior high and elementary school areas. The existing road is narrow and has no drainage or sidewalks.

In FY 2002, a total of \$11.6 million in CF loans and grants were infused into rural Texas Communities. USDA Rural Development finances health clinics, hospitals, rehabilitation centers, nursing homes, elder care and child care facilities, libraries, and emergency medical equipment such as ambulances in rural areas and cities of up to 20,000 in population. Funding may be used to construct or improve community facilities and may include the costs of land, equipment, and necessary professional fees. Loans and guarantees are available to public entities such as municipalities, counties, and special-purpose districts, as well as to nonprofit corporations and tribal governments.
