### **USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR THE CITY OF ATLANTA**

**Atlanta, Texas, July 8, 2003**--Bryan Daniel, Texas State Director, USDA Rural Development announced that the City of Atlanta has received a \$22,500 grant and a \$500,000 loan through the agency's Community Facilities program. The effort is part of USDA Rural Development's national program to help rural areas build and enhance essential community facilities.

"USDA Rural Development's Community Facilities program helps rural communities keep pace with the needs of their rising populations," said Daniel. "With lower populations and tax bases than urban areas, rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

The funds will be used to build a new fire station. This facility will be a 10,000 square foot building with 4 bays, living quarters, and a meeting room. The fire station will serve the 5,745 residents of the area.

In Fiscal Year 2002, a total of \$12 million in direct and guaranteed loans and \$425,000 in grant funds were obligated. Community Facilities loan and grant funds may be used to construct, enlarge or improve community facilities for health care, public safety, and public services. These loans and grants are made to public entities and non-profit organizations. Examples of eligible projects include rural healthcare clinics, town halls, fire trucks, county safety equipment, jaws of life, early warning systems, community centers, libraries, day care centers and schools.
