USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR THE SAN DIEGO MUNICIPAL UTILITY DISTRICT #1

Alice, Texas, July 29, 2003— Bryan Daniel, state director, Texas USDA Rural Development announced today that the San Diego Municipal Utility District (MUD) #1 received a \$2,832,610 grant through the agency's Rural Utilities Service Water and Waste Disposal 306c Colonia Grant program. The effort is part of USDA's national program to help provide rural areas with safe, dependable water and modern sewage systems.

"One of the goals of USDA Rural Development is to provide water and wastewater treatment programs that target public health benefits and provide economic opportunities to America's rural communities," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance their quality of life."

The funds will be used to provide sanitary sewer service to the four colonias' surrounding the City of San Diego: Cadena, La Mesa Road, Mi Tierra, and Buena Vista. The project will include five small lift stations, approximately 21, 260 linear feet of 6-inch sewer line, clean out the existing septic systems, and complete the house connections.

In Fiscal Year 2002, \$91.7 million of loan and grant assistance was infused into 61 projects and 106,000 rural Texas households. USDA Rural Development's water and wastewater program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America's 53 million residents. Loans and grants are available to rural communities with fewer than 10,000 residents. Public bodies, corporations operated on a nonprofit basis, and Indian tribes, that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.

For more information regarding USDA Rural Development programs, contact the Alice Local Office at (361) 664-0453, Ext. 4.
