USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR LIBERTY HILL WATER SUPPLY CORPORATION

Liberty Hill, Texas, September 30, 2003— Bryan Daniel, State Director, Texas USDA Rural Development announced today that Liberty Hill Water Supply Corporation received a \$1,151,000 loan through the agency's Community Program's Water and Waste Disposal Loan program. The effort is part of USDA's national program to help provide rural areas with safe, dependable water and modern sewage systems.

"One of the goals of USDA Rural Development is to provide water and wastewater treatment programs that target public health benefits and provide economic opportunities to America's rural communities," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance their quality of life."

The funds will be used for drilling and equipping a new well and construction of two 100,000 gallon welded steel ground storage tank. The WSC currently serves 500 households.

In Fiscal Year 2003, \$64.4 million of loan and grant assistance was infused into 71 projects and 137,451 rural Texas households. USDA Rural Development's water and wastewater program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America's 53 million residents. Loans and grants are available to rural communities with fewer than 10,000 residents. Public bodies, corporations operated on a nonprofit basis, and Indian tribes, that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.

For more information regarding USDA Rural Development programs, contact the Georgetown Local Office at (512) 863-6502, Ext. 4.
