USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR TOPC TEXAS, LLC

Killeen, Texas, March 9, 2004 – Bryan Daniel, Texas USDA Rural Development State Director, announced today \$249,500 in economic development to strengthen rural communities in Texas, as part of the Bush Administration’s ongoing commitment to invest and bolster programs for rural America.

TOPC Texas, Inc., received a Value-Added Product to Market Development Grant to establish manufacturing and marketing of soybean oil into a powdered food ingredient.

“This grant will bring new economic opportunities and job creation for rural Texans,” said Daniel. “TOPC Texas, Inc., will give rural residents the opportunity to expand and improve local businesses and economies.”

The VAPG program is designed to provide agricultural producers or rural businesses with grant funds to further refine agricultural commodities, increasing their value to consumers. The grants will also provide capital to allow producers to better market their products so that they can better compete in domestic and international markets. Recipients are required to obtain matching funds, which will double the impact of the USDA grants. Funding of individual recipients will be contingent upon meeting the conditions of the grant agreement.

USDA Rural Development serves as the lead Federal entity for rural development needs and administers financial and technical assistance through three agencies: Rural Housing Service, Rural Business-Cooperative Service and Rural Utilities Service.

For further information on USDA Rural Development Business programs, please call J. Pat Liles at (254) 742-9780.

USDA Rural Development is an Equal Opportunity Lender, Provider, and Employer. Complaints of discrimination should be sent to: Office of Civil Rights, Washington, D.C. 20250-9410

The USDA Rural Development mission area was created in 1994 and includes the Rural Business-Cooperative Service, the Rural Housing Service, and the Rural Utilities Service. Its mission is to use the resources of USDA to provide an improved quality of life for the nation’s 53 million rural people.
