## USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR INTER-COMMUNITY VOLUNTEER FIRE DEPARTMENT, INC.

**DEBERRY, TEXAS, February 8, 2006--** Bryan Daniel, USDA Rural Development State Director, today announced that Inter-Community Volunteer Fire Department (VFD) received \$38,500 through the agency's Community Facilities Loan and Grant Program. The funds were used to purchase a 2005 Ford F550 Cab & Chassis truck and an XRT PTO driven hydraulic rescue tool power system. Inter-Community VFD provides fire prevention and suppression as well as first responder and rescue emergency medical services.

"USDA Rural Development's Community Facilities Program helps rural communities keep pace with the needs of their rising populations," said Daniel. "Rural residents can utilize our programs to help provide essential public services that will enhance the quality of life for all rural residents."

In Fiscal Year 2005, \$31.8 million in Community Facility direct and guaranteed loans and over \$900,000 in grants were obligated in Texas. Funds are used to enhance the quality of life for residents of rural areas by providing the means for construction, expansion, or enhancement of community facilities, telecommunication and distance education programs, and water and waste disposal systems. These programs are important because they supply a number of growth opportunities to communities with improved utility facilities, increased job availability, and technology and educational resources. Since 2001, USDA Rural Development's Community Programs have awarded \$1.8 billion for these purposes, and touched the lives of more than 1.16 million households in the process.

USDA Rural Development strives to see that rural citizens can participate fully in the global economy by providing technical assistance, funding, and other programs that help rural Americans build strong economies to improve their quality of life.
