USDA RURAL DEVELOPMENT ANNOUNCES FUNDING FOR POYNOR COMMUNITY WATER SUPPLY CORPORATION

POYNOR, TEXAS, June 2, 2006-- Bryan Daniel, USDA Rural Development State Director, today announced Poynor Community Water Supply Corporation has been selected to receive \$560,200 through the USDA Rural Development Water and Waste Disposal Loan and Grant Program. The funding will be used to construct a new well, add a hydro-pneumatic plant, and install eight miles of distribution lines to provide service to 38 new customers.

“The USDA Rural Development Water and Waste Disposal Program targets public health benefits and economic opportunities in America’s rural communities,” said Daniel. “Projects such as this one in Poynor will help make the environment cleaner and protect the public health for local residents.”

In Fiscal Year 2005, \$80.7 million of loan and grant assistance was distributed throughout rural Texas to 315,249 households. The USDA Rural Development Water and Waste Disposal Program is designed to bring fresh, clean drinking water and sanitary, environmentally sound sewage facilities to rural America’s 53 million residents. Loans and grants are available to rural communities with fewer than 10,000 residents. Public bodies, corporations operating on a non-profit basis, and Indian tribes, that are unable to obtain credit from other sources at reasonable rates and terms, are eligible for assistance.

USDA Rural Development was created in 1994 to serve Texas’ more than 3.6 million rural residents. For further information regarding USDA Rural Development Programs, contact the Canton Local Office at (903) 567-6051, Extension 4, or visit our website at <http://rurdev.usda.gov/tx/>.
