

The Secretary of Agriculture and The Secretary of Energy Visit Virginia

The Presidents, Rural Tour made a stop in Southern Virginia on July 18, 2009. Secretary of Agriculture, Tom Vilsack and Secretary of Energy Steven Chu held an open forum for local rural residents to discuss the efforts of the Administration to rebuild and revitalize rural America.

It was standing room only at the event, where both Secretaries discussed rural topics, from renewable energy to farm program payments.

Pictured above is Secretary Vilsack taking time out to speak with the USDA Employees on hand for the event.
